HRi

1.62 - A LAYERING TECHNIQUE LIKE NO OTHER

MICERIUM HIGHLY ESTHETIC COMPOSITE

If you are layering composites for superior esthetic results, nothing is as predictable and easy as HRi. The unique 1.62 refractive index eliminates shadowing and graying at the margins as makes it possible to manage the relation between translucency and value.

HRi Bio Function

BIOCOMPATIBILITY WITH EXTREME WEAR RESISTANCE

MICERIUM UNIQUE HIGHLY BIOCOMPATIBLE COMPOSITE

This exclusive material from Micerium (Italy) has a unique set of features making it stand out amongst the crowded options available for composite restorations:

- Highly biocompatible with no co-monomers nor Bis-GMA
- Similar abrasion to natural enamel
- Mechanical and functional characteristics similar to gold
- Handling and finishing are sublime

HRi Bio Function 5g refills:

\$117.80 3 @ \$113.30 6 @ \$107.10
